I am detail oriented and highly motivated to pursue my career into the Information Technology field. My aspirations are to one day become a cybersecurity specialist but am currently searching for a career as an entry level position (e.g. data analyst, technical support).

## EXPERIENCE

2020-PRESENT

### COTTRELL TRAILERS, FACILITY MAINTENANCE

Industrial Facility Maintenance. On a day to day basis we deal with fixing fans and diagnosing light fixtures indoor and outdoor and fixing them. Install new lights and fans in big projects. Running new conduit to add power to areas that need outlets or for equipment that is being installed. Maintain and fixing old conduit with 120V, 277V, and 480V running thru it.

2018 – 2020

### VANTIX, COMMERCIAL ELECTRICIAN

Residential, Commercial, and Industrial electrical experience on ground up projects to simple day to day fixes. Sufficient in hanging and bending conduit to any specification or need on projects. Can install, remove, or fix receptacles, switches, individual breakers or entire circuit-breaker panels. Read blue and interpreted blue prints. Always stayed clean and organized in my work area.

2016 – 2019

### AIRCREW FLIGHT EQUIPMENT TECHNICIAN, UNITED STATES AIRFORCE

Inspects, maintains, packs and adjusts aircrew flight equipment such as flight helmets, oxygen masks, parachutes, flotation devices, survival kits, helmet mounted devices, aircrew night vision and other ocular systems, anti-G garments, aircrew eye and respiratory protective equipment, chemical biological protective oxygen masks and coveralls, and other types of AFE and aircrew chemical defense systems. Repairs fabric and rubber components, including protective clothing, thermal radiation barriers, flotation equipment, and various parachutes.

Evaluates problems and determines the feasibility of repair or replacement related to inspecting and repairing fabric, rubber equipment, and parachutes. Evaluates work orders for fabrication of authorized items.
